### PURPOSE

This rule establishes policy regarding Acquired Immune Deficiency Syndrome (AIDS) and other AIDS-related diseases for students and employees at Hillsborough Community College.

### RULE

With policy direction from the Board of Trustees, the College President will develop and maintain a procedure that will provide instruction, information, and activities, or at a minimum those issues set forth in state law, regarding Acquired Immune Deficiency Syndrome (AIDS) and other AIDS-related diseases for students and employees at Hillsborough Community College.

The procedure shall include provisions for educating students and employees about AIDS and AIDS-related diseases, for maintaining confidentiality, and for establishing specific instructions with regard to the following:

1. Custodial and physical plant employees;
2. Admission of students;
3. Employment;
4. Students and employees in the Hospitality Management Program;
5. Students and employees in the Health Sciences and Nursing Programs, and
6. Students and employees in the natural sciences disciplines.

It is the policy of Hillsborough Community College to balance the rights of individuals with AIDS and other AIDS-related diseases to an education and employment with the rights of others while providing education to assist the overall community.
