 - (eLearning) 91220
 - (Tampa) 91219 (Days and Times TBA)
 - (Edison) 91220 (Days and Times TBA)

NOTE: For Students NOT taking all above courses

Any Student not registering for each of the above courses must contact the Program Manager for approval of their schedule. Some OPT courses are not offered every semester and skipping any courses in any semester will restrict registration in future semesters.

The HCC Opticianry Program has many options for its Students and we will work to determine a manageable schedule for any Student.

It is the Student's responsibility to complete all Course and Program requirements and to verify that all requirements are met prior to applying for graduation from the program.

NOTE: The below courses are optional courses. Taking the courses below will not allow you to graduate early- but will lessen the number of credits taken in future semesters

GEN EDS: Register for any necessary General Education Courses (see the Credit Schedule)

***It is strongly recommended that students complete the ENGLISH and MATH credit as soon as possible. These two courses are required for the Opticianry Degree and early completion of these courses may benefit the student in the future.
