

SouthShore CAC Meeting Highlights

September 8, 2009

- Dr. Witt gave a report on the growth of the Southshore campus. SouthShore has approximately 2,100 registrations this Fall and our numbers are expected to grow in the Spring
- The wall in Math/Reading lab has been torn down to allow the space to be utilized by more students
- Our new parking lot should be completed by October 14th
- We are currently number three on the list for HCC to receive funds for a new building. Dr. Witt stated that he will speak to Dr. Stephenson about the impact of having limited space on this campus has for our students and enrollments. In the meantime, Southshore will most likely be fitted with nice, LEED certified portables for three to four years
- Joeel Rivera, one of our Psychology instructors, will be hosting a workshop on Inspiration and Motivation on Sept. 16th from 11a – 12p in Room 202. There will be activities and an opportunity for students to network. All are welcome.
- Student member, Selwyn Baptiste wanted to know if HCC would be providing any mental health counseling for students. Dr. Witt stated that Dean Stancil is heading up this project and hopes to at least have a part-time person that can meet with students and assist them in contacting community organizations
- Another issue that was brought forward was the food service from Sodexo. There have been complaints about the quality, price, and types of food being provided. Dr. Witt acknowledged these concerns and stated that we would work to address this issue after the start of late classes.
