3	<b>Weaknesses</b>
4	
5	Faculty meetings too program specific
6	Separate AA & AS meetings?
7	Datatel - all systems
8	Lack of tenure mentoring
9	Cleanliness of outside stairways
10	Vending machines - Stop taking my \$
11	Put water machine in YADM & YLRC
12	How to get students to realize value of learning - Especially FTIC's
13	More people from the field coming in to show practicality.
14	Have faculty as mentors ("life problems")
15	Most students seeking vocational goals, not educational
16	Too many festivals
17	No recycling
18	Parking at Ybor
19	Mechanical Problems
20	Less Bonding Activities
21	Facilities
22	Comfort
23	Parking at Ybor
24	Directions to services
25	Facilities
26	No timely resolution
27	Air conditioning
28	Elevators
29	Coordinate with academic schedule

3	<b>Responses from Index Cards</b>
4	
5	Based on our enrollment, our campus needs and deserves another
6	mant and English faculty member. This is particularly true when
7	compared to the number of faculty/enrollment on other campuses.
8	
9	SGA events don't leave anything for student organizations to do at
10	events; SGA monopolizes yet requires club participations.
11	
12	Leave class schedules "as they are." i. e., no "dead time" for social
13	activities. Those are extra-curricular. My students need to go to work,
14	family, etc.; These changes would keep them from attending. These do
15	not work for labs - computer, science, and writing - limited space in labs.
16	
17	Can library, tutoring center, testing center, etc. have longer and weekend hours?
18	
19	Can our schedule be changed to have a fall break (a la spring break) to avoid
20	burnout? Can All College Day be at end of spring when grading is over? Mid-
21	October is too busy!
22	
23	No student gallery in the student service building.
24	
25	Rocks with pavers in parking lot in front of Admin. Bldg. are so dangerous!!
26	They need to be leveled or flatter on the ground.
27	
28	All faculty as mentors for students.
29	
30	Promotion of love of learning.
31	
32	Computers should be assigned to people not offices. Thus, if you transfer
33	to a new location, your computer goes with you.
