

Ybor City Campus Planning Council Minutes

Thursday, May 13, 2010 1:30P.M.

In Attendance: Dr. Emery Alford, Dr. Linda Herlocker, Mr. John Meeks (representing Dr. Jack Evans), David Liller, Chuck Bowen, Suzanne Crosby, Christina Acosta, Chuck Holmes

This meeting is taking the place of our meeting that was scheduled for Friday, May 21st.

There was a brief discussion regarding the status of the items from the visioning list that were discussed in April. More discussion was held regarding item #48 – keypad access to labs. Room access is an item that is being reviewed college wide. Magnetic card access locks are being discussed by Facilities Planning (David Cabeceiras).

Christina noted that there were 43 people for a first audition recently, and if that trend holds, if we don't have more dance space, we will need to turn students away. A suggestion was made to investigate the possibility of getting space in the Heidt building, or find a space that could be leased.

The Capital Outlay Budget Request Form was reviewed and re-prioritized. Priority was given to those line items related to safety. Several line items will be combined into single line items. David Liller will update the Form and send the updated list out to the members present for final comment before submitting the recommendations to Dr. Robinson.

The meeting adjourned at approximately 3:00 P.M.
