--(eLearning) 23345

NOTE: For Students NOT taking all above courses

Any Student not registering for all 7 OPT courses must contact the Program Manager for approval of their schedule. Some OPT courses are not offered every semester and skipping any courses in any semester will restrict registration in future semesters.

The HCC Opticianry Program has many options for its Students and we will work to determine a manageable schedule for any Student.

(SEE FOLLOWING PAGE)

It is the Student's responsibility to complete all Course and Program requirements and to verify that all requirements have been met prior to graduating from the program.

NOTES: For Spring 2011 Start Students

Refract Theory and CL Theory II: No on-campus sessions are held for these courses. Be sure to find access to contact lens and refracting equipment, tools and procedures at an Optical in your area prior to the start of classes.

CLINICAL IV: Any Student taking 3 credits or more “on-campus” is required to take “on-campus Clinic.”

The above courses reflect a schedule that will enable you to graduate Summer 2012. (Having started in January 2011 and taken ALL recommended courses puts you on an accelerated schedule.)

If you do not wish to register for all of the above recommended courses or have not taken ALL recommended courses through SP11, SU11, FA11:

CONTACT US BEFORE YOU REGISTER to allow us to recommend an appropriate schedule to meet your needs.
