Complementing Salmon's work will be encaustic paintings by renowned Aripeka artist Leslie Neumann, who has refined her technique of layering pigment, melted beeswax and oil paint to create paintings with a haunting luminosity.

September 4-28

Artist's Reception: September 6

TBA--During September 2012 to begin our academic year, we are working on securing a high-caliber photography exhibition. I have been in contact with the studios of Robert Parke-Harrison and that of Moriko Mori, both in NYC. Other sources are also being considered in curating a cutting-edge photographic exhibit.
