Interests

I enjoy writing and am currently seeking publication for a novel I've recently completed. Music is a mainstay for me, I enjoy playing live music with a band as well as focusing on home recording projects. I am fascinated with outmoded electronic instruments and also like to experiment with basic electronics projects. Traveling is always invigorating and, in particular, canoeing and camping in Florida's wilderness is a favorite activity. Lastly, my personal scholarship of late has focused on both futures studies and sustainability and environmental policy, and I'm contemplating pursuing another graduate degree in one of these fields.
