

CAREER RESOURCE CENTER

The Career Resource Center can provide students with information on careers and help them make career plans. Students can take a career inventory, meet with a counselor for test interpretation, and meet with an advisor on an individual or group basis.

If students prefer working on their own, the College offers several automated career exploration options. CHOICES is a computerized career counseling and career exploration system designed to help students identify appropriate career options. The CHOICES database contains information on more than 1,000 occupations. Students can get more information about the career exploration process by making an appointment to meet with an advisor.

Employment opportunities are posted in the campus career centers and on job bulletin boards. The Career Resource Center sponsors job fairs; schedules on-campus interviews with employers; and helps students with resume writing, interviewing techniques and preparation of letters of application.

CHILDREN ON CAMPUS

In order to ensure their safety, HCC requires that parents and others responsible for the care of minor children under the age of 17 should not bring these children on campus while engaged in academic activities such as class, research, lab periods, or study groups. Minor children under the age of 17 should be on campus only when activities specifically allow for their involvement.

CLUBS

Each campus has clubs and organizations that serve student needs. Student clubs and organizations provide students with the opportunity to participate in organized activities with others having similar interests. They offer students a way to make friends, expand horizons, and get involved in college life.

AFRICAN-AMERICAN STUDENT UNION

(Plant City and Ybor City) Promotes interaction between HCC students, administration, and faculty while raising cultural consciousness.

AMERICAN SIGN LANGUAGE (ASL)

(Dale Mabry) Provides American Sign Language and Interpreting students with the opportunity to participate in activities that support the program, become involved in community programs, lend aid to community events that need interpreters, and further their skills while developing closer relationships with their fellow students.

AQUACULTURE CLUB

(Brandon) The Aquaculture club is open to all students majoring in aquaculture. Some of the aims of the club include having guest speakers in from the profession at club meeting, sponsoring field trips to aquaculture farms/businesses associated with the industry, and participating in community service projects.

ARETE CLUB

(Brandon) Fosters camaraderie among the students in the honors program and promotes service to the community.
