THE ASSOCIATE DEGREE

Hillsborough Community College offers associate in arts (AA), associate in science (AS), and associate in applied science (AAS) degrees.

The AA degree is awarded to students who complete university transfer curricula designed to prepare them to enter as juniors at a four-year college or university.

The AS degree is awarded to students who complete technical programs. The AS degree is designed to prepare students for the workforce. A number of these degrees now designed so that students who earn them may transfer their credits into specialized programs at four-year institutions. In addition, students who earn one AS degree may qualify for another. Students wishing to earn a second AS degree must complete at least 15 hours at HCC beyond the first degree. Moreover, they must meet all requirements for the second degree.

The AAS degree is also awarded to students who complete a technical program. However, the AAS degree is designed to be an entry-level, job-preparation degree. It is not designed for transfer to a four-year institution.

To ensure a well-rounded education, degree curricula include general education courses within communications, humanities, natural sciences, mathematics and social and behavioral sciences. Where options are available, they are noted.

Time to Degree and Common Prerequisites

Florida statutes require that associate in arts degrees require no more than 60 credit hours. Those statutes also mandate that the general education courses required for the associates in arts degrees be distributed within designated categories. Courses that comprise the 24 hours of electives may be designated for university program entry.

Graduation Requirements

To earn an AA, an AS, or an AAS degree, students must:

1. complete the approved curriculum of not less than 60 credits including General Education Requirements, program requirements, and electives; and
2. fulfill the degree requirements under the catalog in effect during the semester that begins the period of continuous enrollment that immediately precedes the semester in which the student applies for graduation.

NOTE: Continuous enrollment is maintained by registering for at least one term each academic year. If a student's enrollment is interrupted for more than an academic year, the student will be considered a former student returning. A former student returning is required to meet the graduation requirements of the catalog in effect during the semester that begins the period of continuous enrollment that immediately precedes the semester in which the student applies for graduation. However, general education courses previously completed
