If Change in Lab Fee, please indicate new amount. \$ _____ If Change in Course Status, please indicate: Dual Occupational

Rationale for New Course, Change in Course or Request for Course Termination (Please indicate how the proposal supports the college's mission and goals).
 The state curriculum frameworks for the Hospitality Management AS degree program have been revised to require that students be able to perform Cardiopulmonary Resuscitation (CPR). To meet this new mandated safety skill expectation, incoming students in the hospitality management program should obtain this certification during their first course in the program, which is HFT 1000. The student must show proof of his/her current AHA - BLS CPR (American Heart Association Basic Life Support Cardiopulmonary Resuscitation) certification.
