5th Annual Plant City Community Expo sponsored by the Greater Plant City Chamber of Commerce, May 2-3, 2007
The Trinkle Building

In 2003, a most significant partnership was created when the Florida Legislature appropriated $8.5 million in funds to build a multipurpose facility on the Plant City campus. These funds, together with generous donations from Sunshine State Federal Savings and Loan Association and twenty leaders in the Plant City community, produced the Trinkle Center. This center is a versatile public assembly facility for performances, meetings, banquets, and other events. The joint-use 47,000 square foot building, built to partner with Plant City, has provided all HCC campuses with meeting space and has provided the Plant City campus with additional academic classrooms and labs. In addition, it has provided Plant City and the other Florida cities, such as Brandon and Tampa, with meeting space that has, in turn, fostered a positive relationship between HCC and the community that would not have existed otherwise.

We at HCC encourage you to come to visit the facility and to see what it has to offer to our community as a whole or to you personally.

Sunshine State Federal Savings Community Room

This multipurpose room is the largest room in the Trinkle Center with 12,000 square feet and will seat 1,500 people theater-style or 1,087 banquet-style. It is equipped with state-of-the-art sound and light system and a portable stage.

City of Plant City Lobby

The lobby is an excellent venue for a pre-event social gathering and for displaying information relevant to an event. The Plasma TV screens can project the events occurring in the multipurpose room via camera.

Breakout Rooms

Each of the six breakout rooms is equipped with its own AV equipment. They can seat 100 to 300 people theater-style, 100 to 200 banquet style, and can be joined or separated as needed by sound proof, folding walls.

Patio

The Patio is an excellent area for winter events.
