A.A. Degree Transfer Performance in the SUS Report

This measure indicates the performance of Associate in Arts graduates for 2006-07 who transferred to the State Universities System (SUS) in 2007-08. A.A. students who started at one college, transferred to another and then transferred to the State University System are not accounted for in this report. The report focuses solely on the performance of students who received their complete education from one institution. This measure will allow institutions to focus on the results of their own instructional strategies, so appropriate adjustments can be made in response to the results. Performance will be reported by five categories: the percent below 2.0 GPA, the percent at or above 2.0 GPA and less than 2.5, the percent at or above 2.5 GPA, the percent at or above 3.0 GPA, and the mean GPA. However, the goal for this measure focuses on the percent at or above 2.5 GPA. The report also displays the number of students that are enrolled at a state university by the college from which they graduated, by ethnicity and former college preparatory/non-college preparatory status.

First Time in College includes FTIC and previous year high school graduates who were dual enrolled within the prior two years (2004-05, 2005-06). Of those students, the report shows the number and percent who failed some portion of their entrance exam, how many of those students enrolled in a college preparatory course (for the area needed), with the number and percentage of those who passed the highest level college preparatory course for that area at that particular college, between Fall 2006-07 and Summer 2008-09.

CLAS Performance Report

Each display shows the number of students who attempted either the CLAS Test or had a CLAS Alternative and the percent meeting the CLAS requirements, for each CLAST subtest, and for all subtests. There are three categories: 1. Students who took the CLAS Test, 2. Students who used the CLAS Alternatives instead of the CLAST, and 3. All Students who took the CLAS Test or used the CLAS Alternatives. The pool of students for this outcome measure includes those students from SDB 2008, excluding transfer students, with 60 or more credits earned at a particular college, excluding college preparatory courses. Only CLAST scores prior to September 2008 are included. CLAS Alternatives are institutionally determined.
