The Associate in Arts Degree

University Transfer Program

The associate in arts (AA) degree is designed primarily to meet the requirements for a student to transfer to the upper division level of a college or university to continue to work toward a bachelor’s degree.

Students should be aware of the specific requirements for the AA degree imposed by state regulations and law. For example, general education and elective credit requirements integrate requirements established by the Southern Association of Colleges and Schools and Florida’s Gordon Rule.

Meeting graduation requirements for an AA degree from a Florida community college is not synonymous with meeting the specific course requirements to enter a specific program at a state university or private college belonging to the Independent Colleges of Florida.

HCC prepares students for hundreds of possible transfer majors, each of which has a distinct listing of common prerequisite courses designated by the Florida University System. To ensure accuracy in selecting courses, students should refer to the student advising guides available online or in the counseling and advising offices. These guides can be adapted to a specific university major including, but not limited to the following:

- Agriculture
- Architecture
- Art
- Building Construction
- Business Administration
- Computer Information Systems
- Computer Science (Engineering)
- Dance
- Dramatic Arts
- Education and Teacher Preparation
- Engineering
- Graphic Design
- Hospitality Administration Management
- Liberal Arts and Sciences
- Mass Communications
- Medical Science
- Music
- Pharmacy

To earn an AA degree, students must complete a minimum of 60 credit hours with no less than 36 credits of specified general education courses and 24 credits in the university transfer program electives. Legislation may further affect the graduation requirement; therefore, students are advised to obtain more current information from the advising and transfer offices.

The articulation agreement between Florida community colleges and state universities specifies that students who have been certified as having satisfactorily completed the general education requirements in a university transfer program are exempt from any additional general education requirements after transferring to a state university or community college. However, to be eligible for admission into a limited access program at a state university, students may be required to take specific prerequisite courses (which may exceed the 60 credit hours) and meet other requirements such as a minimum GPA, minimum ACT/SAT test scores or audition/portfolio.

Students may pursue any combination of university transfer programs, but only one AA degree will be awarded.

Students are advised to contact the specific department of the institution where they plan to transfer as early as possible for information regarding courses to be taken at HCC. Courses required at transfer institutions may fulfill HCC general education requirements or electives.

General Education Requirements

General education provides a foundation upon which a student’s learning experience is built. It offers students the opportunity to acquire the skills and knowledge necessary to have a broad understanding of a changing world.

The HCC general education program is designed to provide students with the knowledge, skills, and vision necessary to allow them to become valued participants in a complex and culturally diverse world. The program encourages intellectual inquiry, helping students to develop an understanding of the human mind and spirit, as well as a sense of history and the dynamics of the society around them. As students plan for the world that is ahead of them, the general education program gives them an appreciation of the world that preceded them, as well as a frame of reference for the world in which they live.

Students who complete the HCC general education core curriculum should be able to demonstrate their:

- ability to think critically.
- ability to express themselves clearly in written and oral communication.
- ability to express themselves effectively in quantitative terms.
- understanding of and appreciation for the value and significance of culture.
- appreciation of the scientific method of inquiry and the historical and contemporary impact of science on daily life.
- understanding of global political, social, economic, and historical perspectives.
- ability to use technology to access, retrieve, process, and communicate information.

To earn an AA degree, students must complete 36 hours of general education courses.

Group I – Communications and Humanities: 15 credits required

Communications: 9 credits required

- THE 1000 Introduction to Theatre Arts ....................................... 3 cr.

**Group II – Mathematics and Natural Science: 12 credits required**

**Math: 6 credits required**

Students may choose two of the following:
- MAC 1105 College Algebra .......................................................... 3 cr.
- MAC 2241 Calculus for the Life Sciences ..................................... 3 cr.
- MGF 1106 Liberal Arts Math I .................................................... 3 cr.
- MGF 1107 Liberal Arts Math II .................................................... 3 cr.
- STA 2023 Elementary Statistics ............................................... 3 cr.

*(May take any courses of higher content to substitute)*

**Science: 6-8 credits required**

General education requirement in science may be met through any one of the following three options:

**Option I (7 credit hours total)**

Students must select at least one course in biological science and one course in physical science from the following list of courses. The selection must include at least one lecture course with its co-requisite laboratory in biological science or physical science.

**Biological Science**

- BSC 1005C Biological Foundations (non-science majors) ................. 3 cr.
- BSC 1010 Biological Science I .................................................... 3 cr.
- BSC 1010L Biological Science I Lab .......................................... 1 cr.
- BSC 1025 Nutrition and Drugs .................................................... 3 cr.
- BSC 1025L Nutrition and Drugs Lab .......................................... 1 cr.
- BSC 1085 Human Anatomy and Physiology I ............................. 3 cr.
- BSC 1085L Human Anatomy and Physiology I Lab ...................... 1 cr.
- BSC 1092C Human Biology .......................................................... 3 cr.
- IDS 1152C Environmental Science ............................................ 3 cr.
- OCB 2000 Marine Biology .......................................................... 3 cr.
- OCB 2000L Marine Biology Lab ................................................. 1 cr.
- PCB 1730 Human Reproduction and Inheritance ......................... 3 cr.

**Physical Science**

- AST 1002C Astronomy .............................................................. 3 cr.
- CHM 1020C Chemistry and Society ........................................... 3 cr.
- CHM 1032 Chemistry for Health Sciences ................................... 3 cr.
- CHM 1032L Chemistry for Health Sciences Lab ............................ 1 cr.
- CHM1045 College Chemistry I ................................................... 3 cr.
- CHM 1045L College Chemistry I Lab ......................................... 1 cr.
- ESC 1000 Earth Science ............................................................. 3 cr.
- ESC 1000L Earth Science Lab ................................................... 1 cr.
- GLY 1010 Physical Geology ....................................................... 3 cr.
- GLY 1010L Physical Geology Lab ............................................. 1 cr.
- MET 2010C Meteorology .......................................................... 3 cr.
- PHY 1053 General Physics I ..................................................... 3 cr.
- PHY 1053L General Physics I Lab ............................................. 1 cr.
- PSC 1515 Energy and the Environment ..................................... 3 cr.
- PSC 1515L Energy and the Environment Lab ............................... 1 cr.

**Option II (8 credit hours total)**

Students intending to pursue a major in the sciences, health care, or a related field, may wish to fulfill the general education requirement by selecting a biological science and a physical science with their corequisite laboratories from the following list of courses:

**Biological Science**

- BSC 1010 Biological Science I ................................................... 3 cr.
- BSC 1010L Biological Science I Lab .......................................... 1 cr.
- BSC 1085 Human Anatomy and Physiology I ............................. 3 cr.
- BSC 1085L Human Anatomy and Physiology I Lab ........................ 1 cr.
- OCB 2000 Marine Biology .......................................................... 3 cr.
- OCB 2000L Marine Biology Lab ................................................. 1 cr.

**Physical Science**

- CHM 1045 College Chemistry I ................................................... 3 cr.
- CHM 1045L College Chemistry I Lab ......................................... 1 cr.
- CHM 1032 Chemistry for Health Science ................................... 3 cr.
- CHM 1032L Chemistry for Health Science Lab ............................ 1 cr.
- GLY 1010 Physical Geology ....................................................... 3 cr.
- GLY 1010L Physical Geology Lab ............................................. 1 cr.
- PHY 1055 General Physics I ..................................................... 3 cr.
- PHY 1053L General Physics I Lab ............................................. 1 cr.

**Option III (6 credit hours total)**

Students who possess an interest in science but who do not intend to major in a science discipline may wish to fulfill the general education requirement by completing the two-part integrated natural science course sequence listed below. ISC 1004C and ISC 1005C both cover biological and physical science objectives. Due to the integrated approach of these courses, the student must successfully complete both courses with a grade of “C” or higher for either of the courses to count toward satisfaction of the general education requirement in science. Should the student successfully complete only one of the courses, that course will be considered an elective credit only.

**Integrated Science Course Program**

- ISC 1004C Integrated Natural Science I .................................. 3 cr.
Successful complete the approved HCC computer course, CGS 1000 (3 Credits). Successful completion requires that the student earn a grade of “C” or better in the course.

2. Provide an official transcript demonstrating successful completion of a college/university course(s) equivalent to the approved HCC course(s).

3. Pass the proficiency test administered by the college.

Students should check with the counseling/advising office on their campus for specific information about fulfilling the requirement to demonstrate computer proficiency.

Gordon Rule Requirements

State Board of Education Rule 6A-10.030 (the Gordon Rule) is a rule stipulating requirements of student performance in both the communications and mathematics areas. Satisfactory completion of this rule requires that a student earn a grade of “C” or better in each applicable course.

Students fulfill the Gordon Rule requirement upon successful completion of the general education curriculum. Within the communications area, the student is required to complete writing assignments as designated in the instructors’ syllabi in the areas of English, humanities, history, natural science, physical science, behavioral science, and history/political science. Within the mathematics area, completion of the general education mathematics courses fulfills the requirement. Prerequisite courses must be completed, or appropriate test scores attained, before enrolling in Gordon Rule courses.

Capstone Course Requirement

(IDS 2110, CONNECTIONS)

The capstone course (IDS 2110, Connections) is an interdisciplinary course that allows students to synthesize key components of their general education experience. Based on the selected topics approach, the course summarizes major points in the bodies of knowledge that were acquired while students participated in the general education curriculum, and it provides opportunities for students to use the knowledge and skills gained from their general education experience in an applied manner. Required for graduation by students enrolled in the associate in arts degree program, the course involves research skills, the application of theoretical models, and the use of learned skills. Prior to taking the course, students must have completed at least 45 hours of coursework towards the degree, including at least 24 hours of general education coursework with a minimum grade of “C.”

State University Foreign Language Requirement

Although a student who has not earned two credits of sequential foreign language at the secondary level is not required to take a foreign language to graduate from HCC, a student must successfully complete 8 to 10 hours of one foreign language at the college level for undergraduate admission to a state university. Thus, if students intend to transfer to a four-year university, they should consider completing their foreign language requirement at HCC.

Two years of American Sign Language at the secondary level or 8 to 10 credits at the postsecondary level also satisfy the language admission requirement.
AA • Associate in Arts Degree

Students may pursue any combination of university transfer programs, but only one AA degree will be awarded. Any transferrable course may be included and used as an AA elective, unless program restrictions apply. The following information represents the most common majors students pursue upon transferring to a university. Consult an academic advisor for information on any majors not listed.

For a list of HCC approved general education courses and specific details regarding individual majors, consult the appropriate advising guide available from the HCC website at www.hccfl.edu or any campus advising office.

AA • Agriculture

AA.AGR (60 credit hours)

This pre-major is for students who want to pursue a four-year degree in agricultural fields such as agricultural-education, media, engineering, agronomy, animal science, forestry, plant science and food science.

Careers include teaching, writing, sales, manufacturing, farm management, extension services, animal breeding, other jobs working directly with plants and animals as well as a variety of positions in agricultural businesses and related industries.

General Education Requirements.................................................. ................................................. 36 cr.

Recommended Courses/Electives........................................................................................................ 24 cr.

NOTE 1: The list is a guideline. The following courses may be applied toward your degree at the institution where you plan to transfer. It is the student’s responsibility to contact the institution to ensure transferability. Consult an advisor or counselor for general education and recommended courses/electives for this pre-major, or consult the appropriate advising guide on the HCC website (www.hccfl.edu).

NOTE 2: IDS 2110, Connections is required for graduation.

NOTE 3: The associate in arts degree may be awarded upon satisfactory completion of 60 credit hours. Students are advised to complete the above planned program in order to transfer into a similar program at senior institutions.

AA • Architecture

AA.ARC (72 credit hours)

This pre-major is for students who want to pursue a four-year degree in architectural design, interior design and landscape architecture.

Careers include interior and building design, furniture and lighting design, urban planning, industrial design and sales as well as jobs in the environmental field and construction industry.

Recommended Courses

AA • Business Administration

AA.BUS (60 credit hours)

This pre-major is for students who want to pursue a four-year degree in business, specializing in such fields as accounting, economics, finance, insurance, marketing and management.

Careers include various management positions in nearly every business and industry, such as sales, accountant, labor negotiator and business owner.

General Education Requirements ........................................................................................................ 36 cr.
Recommended Courses/Electives ........................................................................................................ 24 cr.

NOTE 3: The associate in arts degree may be awarded upon satisfactory completion of 60 credit hours. Students are advised to complete the above planned track in order to transfer into a similar program at senior institutions.

AA • Computer Information Systems

AA.CIS (60 credit hours)

This pre-major is for students who want to pursue a four-year degree in computer and information sciences and work in business or related fields.

Careers include finance analysts, actuaries, statisticians, economists, and positions in designing, testing and implementing computer programs in various segments of business and industry, management, operations and business planning.

General Education Requirements ........................................................................................................ 36 cr.
Recommended Courses/Electives ........................................................................................................ 24 cr.

NOTE 3: The associate in arts degree may be awarded upon satisfactory completion of 60 credit hours. Students are advised to complete the above planned program in order to transfer into a similar program at senior institutions.

</tr>
</tbody>
</table>

* Students must enroll in a level of ballet or modern dance each semester. A specific level of ballet (I-IV) and modern dance (I-IV) may be taken twice for credit (eight hours of any level).

NOTE 3: Although students receive an associate in arts degree after 60 credit hours are earned, it is recommended that students take additional program electives, and participate in ballet, modern dance and dance ensemble each semester. This proficiency level is important for acceptance at state universities.

**AA • Dramatic Arts**

**AA.THE (60 credit hours)**

This pre-major is for students who wish to pursue a four-year degree in drama or theatre. Careers include performing, teaching, writing, and directing.

**General Education Requirements** ................................................. 36 cr.

**Recommended Courses/Electives** .................................................. 24 cr.
