Dr. Craig Hardesty and Davidson Pierre for presenting, “Instructional Design: The Key to Successful Online Course,” at the AMATYC conference in Austin, Texas.

Finish the BB Training?

With the exception of email, Campus Cruiser will no longer be available after December 17, 2011.

Blue-Bin It!

With the exception of email, Campus Cruiser will no longer be available after December 17, 2011.
It’s that time again...the most wonderful season of the year! Once again, SouthShore Faculty and Staff are partnering with Ruskin Head Start to make Christmas morning a little brighter. There are 60 children (3-, 4-, and 5-year-olds) who are counting on our holiday spirit. As of December 1st, we have only 7 handprints left! With these few handprints remaining, perhaps you can consider taking one (or donating cash and a gift will be bought for a child on your behalf)... The value of the gift is approximately $15-20. Some of the more popular items this year include Barbie dolls, Hot Wheels, puzzles, coloring books, learning puzzles, and Spiderman. The deadline for dropping off your gift is Friday, December 2.

Thanking you most kindly in advance,

June Fishbourne

---

Some interesting data concerning the SouthShore Campus from the 2010-11 HCC Fact Book:

**Enrollment**

- SouthShore Campus had more enrollment than Florida Keys Community College or North Florida Community College.
- SouthShore Campus will surpass Chipola College for the current academic year.
- SouthShore Enrollment grew 158% in three years. (Compared to 12.2% for the district).*

**Age and Ethnicity**

- The ethnicity of our students was 22.3% Hispanic, 20.7% African American and 52.0% White (3.4% higher than district).
- 61% of SouthShore Students were female. (5.5% higher than the district average)
- The median age of a SouthShore credit student was 22.9 years.

**Programs of Study**

- 99% of SouthShore students were enrolled in credit classes. (17% higher than the district average)
- 15.4% of SouthShore enrollment was in College Prep. (about one percent higher than district average)
- College Prep, as a percentage enrollment, dropped by nearly 18% last year.

What emerges from these data is a campus that has experienced explosive growth—almost entirely in credit programs. The demographic profile of our students varies only slightly from the college average. Our initially high college prep percentage has decreased to near the district average. *Note: The term “district” refers to the HCC average. The link to the full college Fact Book is below: 2011 edition of the college Fact Book.
