Ybor City Campus Planning Council

Draft of Minutes: 10-07-11

In attendance:

Chuck Holmes, David Liller, Christina Acosta, Carol Zavarella, Emery Alford, Suzanne Crosby, Linda Herlocker, Pat Weber, Loretta “Rose” Ramsay.

The CPC members met outside of the YADM building at approximately 8:15. This month’s meeting consisted of a tour of the 2nd floor renovated spaces that will be the Faculty Resource Center. It was noted that instead of Smart Boards for the training / conference room, that Smart Projectors were chosen that will give the same functionality.

David Liller noted that it will be necessary to use chairs from storage for the new space. Funding for the new furniture is still “on hold”.

Regarding other renovations, Dr. Zavarella noted that noise from the Fitness Center renovations are making it difficult to teach at times on the 2nd floor of the YBOR building. She expressed concern that once the fitness center was operational, the noise from the activities in that space will interfere with instruction occurring in the classrooms above it. Pat Weber will check to see how the ceiling in the Fitness Center space will be insulated.

The meeting adjourned at approximately 8:40 A.M.
