

The Hillsborough Community College Nursing Program is using the Test of Essential Academic Skills (ATI TEAS®) as a pass/fail tool for potential nursing students. Students who score 60 or above on the ATI TEAS® exam will then be ranked by GPA for possible admission into the Nursing Program. This test will evaluate reading, math, science, English language usage. The TEAS® Version V will be accepted until January 15, 2018.

Passing

Students are allowed three attempts per year to achieve a passing score of at least 60, but must wait 30 days between attempts. The calendar date for the year begins January 1st. Passing the ATI TEAS® exam does not guarantee placement, but not passing assures that the student will not be accepted into the program.

Registration

Register with ATI at <https://www.atitesting.com/home.aspx>

Fees

Fees must be paid directly to ATI through their website. The cost is \$70 for each attempt. HCC does not add any fee for administration of the test.

Scheduling

You must schedule with ATI at least one week prior to the date that you wish to test. Scheduling is performed at the ATI website which is [atitesting.com/ati_next_gen/customecom/SessionCityStateSelection.aspx?stf=6&stype=1&prev=0](https://www.atitesting.com/ati_next_gen/customecom/SessionCityStateSelection.aspx?stf=6&stype=1&prev=0).

After scheduling with ATI, students who have questions regarding their schedule should contact the testing center by email at dmtesting@hccfl.edu.

Testing

Students will go to DSTU 203 at the Dale Mabry Campus, 4001 W. Tampa Bay Blvd., to take their exam. You will not need to bring any pens, pencils or calculator.

You will need to provide one form of identification which must be government-issued and your ATI username and password at the time of testing. You should expect to spend four hours completing the test.

Results

You will receive your results when you complete the test. A copy of the results must accompany the nursing application. If you still have questions, please contact Health Sciences Admissions at healthsciences@hccfl.edu.
