

Associate in Science & Technical Programs

AS - Associate in Science Degree
CCC - College Credit Certificate

HCC
Dale Mabry Campus

Take learning to the next level and reach for your goals with HCC.

The Associate in Science and Technical Programs Division at the Dale Mabry Campus features degrees and certificates that fit today's workforce needs.

The future is now.

HCC's programs will prepare you for the careers of today and tomorrow.

IT PROJECT MANAGEMENT

This program provides technical knowledge and skills needed to prepare graduates for careers as project managers and professionals incorporating Information Technology (IT) project management strategies in their business activities and in the field of IT. The curriculum assists students with initiating, planning, executing, controlling and closing the work of a project team to achieve defined goals and meet required project parameters in a specified time.

NETWORK SECURITY

The rise of security threats to organizational networks and data has created a strong demand for network security professionals. HCC's network security program provides challenging academic standards and relevant technical knowledge and skills needed to prepare graduates for further education and careers in the field of Information Technology (IT) network security. Graduates receive technical skill proficiency to resolve security-related administration issues.

ROBOTICS AND SIMULATION TECHNICIAN

This program provides coherent and rigorous robotics and simulation competencies defined by the electronics industry. Graduates will be able to install, maintain and troubleshoot general robot systems and simulators. Additionally, graduates will be prepared to enter advanced training and educational programs in specialized robotics and simulation-related fields.

SUSTAINABLE DESIGN

Sustainability issues are increasingly important as the planet faces the challenges of overpopulation and resource scarcity. Architectural design and construction field students develop the competencies needed to reduce the negative impact of buildings on occupants and the natural environment. The course sequence integrates technical building information skills with sustainable practices.

Associate in Science Degrees

Accounting Technology
Architectural Design/Construction Technology
Business Administration and Management
Business Administration - Entrepreneurship
Computer Engineering Technology
Computer Information Technology
Computer Programming & Analysis
Culinary Management
Cybersecurity
Database Technology
Dietetic Technician
Digital Media/Multimedia
 -Game Design and Development
 -Multimedia Developer
Electronics Engineering Technology
Hospitality and Tourism Management
Industrial Management Technology
Internet Services Technology
 -Web Designer
 -Web Developer
IT Project Management
Network Systems Technology
 -Digital Forensics
 -Network Administrator
 -Network Infrastructure
 -Network Security
 -Unix/Linux Administrator
Restaurant Management

College Credit Certificates

Accounting Technology Management
Accounting Technology Operations
Accounting Technology Specialist
Advanced Network Infrastructure
AutoCAD Foundations
Business Development and Entrepreneurship

Business Management
Business Operations
Business Specialist
Chef's Apprentice
Computer Programmer
Computer Programming Specialist
Culinary Arts
Database Administrator
Digital Forensics
Digital Media/Multimedia Instructional Technology
Digital Media/Multimedia Production
Digital Media/Multimedia Video Production
Digital Media/Multimedia Web Production
Digital Video Production
Drafting
Electronics Technician
Entrepreneurship and Innovation
Event Planning Management
Food and Beverage Management
Food and Beverage Operations
Game Authoring
Help Desk Support Technician
Internet Services Technology Web
 Development Specialist - Designer
Internet Services Technology Web
 Development Specialist - Developer
Laser and Photonics Technician
Microcomputer Repairer/Installer
Network Enterprise Administration
Network Infrastructure
Network Security/Cybersecurity
Network Server Administration
Network Support Technician
Robotics and Simulation Technician
Sustainable Design
Unix/Linux System Administrator
