Building Confidence. Developing Leaders.

HCC Honors Program students discover a variety of pathways to leadership and service. As members of the Areté Honors student organization, they participate in monthly meetings, social events and civic engagement. Activities unique to the Honors Program, like movie nights, ropes courses, Tai Chi, and exploratory events within our local community and beyond, help to establish connections among the students. Many Honors students also take advantage of opportunities to attend and present at state, regional and national conferences.

Students in the Honors Program are required to take Honors Leadership (IDH 2931H) their first semester in the program. In addition to developing leadership skills, the course encourages self-discovery, an immediate opportunity to serve and the application of professional skills.

Each spring, students in the Global Leadership (IDH 2955H) course travel to a developing country for a transformational service learning experience. These students gain a global perspective while discovering ways to better serve their local communities.
